**DRAFT RULES**

**1. Short title.**—These rules may be called the Customs Duties Drawback (Copper Dusting Preparations) Rules, 1957.

**2. Definitions.**—In these rules, unless the context otherwise requires:—

- (a) 'the Act' means the Sea Customs Act, 1878 (8 of 1878);
- (b) 'copper dusting preparations' means fungicidal wettable dusting preparations of cuprous oxide which are free from cupric compounds and other pesticidal ingredients;
- (c) 'cuprous oxide' means the pure chemical compound of that name;
- (d) 'imported material' means concentrated wettable copper powder consisting of cuprous oxide, diluents, and emulsifying and dispersing agents, but free from cupric compounds and other pesticidal ingredients, imported into India or the State of Pondicherry by a registered manufacturer, on payment of customs duty;
- (e) 'quarter' means a period of three months beginning with the first day of January, the first day of April, the first day of July or the first day of October; and
- (f) 'registered manufacturer' means a manufacturer of copper dusting preparations registered under Rule 4.

**3. Goods in respect of which drawback may be allowed.**—Subject to the provisions of the Act and these rules, a drawback shall be allowed in respect of the imported material contained in copper dusting preparations (hereinafter referred to as the goods) manufactured in India or the State of Pondicherry by a registered manufacturer and exported therefrom:

Provided that the goods are packed in tamper-proof sealed containers bearing on their outside, the name of the manufacturer of the goods, the net weight of the goods contained in each of the containers, the brand or code number and such other particulars as the Chief Customs Officer or the Customs Collector may from time to time specify in this behalf.

**4. Registration of manufacturers.**—(1) A drawback under these rules shall be admissible only in respect of the goods manufactured by a person registered under, and for the purposes of, these rules by a Chief Customs Officer, authorised in this behalf by the Chief Customs Authority and hereinafter referred to as the authorised Chief Customs Officer.

(2) An application for registration shall be made by a manufacturer of the goods to the authorised Chief Customs Officer.

(3) The application shall specify the brands, grades or varieties of the goods in respect of which registration is required, and shall, in respect of each such brand, grade or variety furnish the description and quantity of different materials used in the manufacture of one dozen uniform packages of specified weight, or such other convenient quantity as the Customs Collector thinks fit, of each brand, grade or variety of the goods.

(4) The authorised Chief Customs Officer may, if he is satisfied that the provisions of these rules have been complied with register the applicant as a registered manufacturer.

(5) The registered manufacturer shall not alter the composition of formula of any brand, grade or variety of the goods except with the prior approval of the authorised Chief Customs Officer.

(6) Any registered manufacturer contravening the provisions of the last-preceding sub-rule shall render himself liable to have his registration cancelled without prejudice to any other penalty to which he may be subject under the Act and these rules.

**5. Rate of Drawback.**—(1) Where the Customs Collector is satisfied that the claim for a drawback is established under these rules, such drawback shall be paid at the rate specified hereunder.

*Explanation.*—For the purpose of the calculation of such rate the highest amount of cuprous oxide per unit quantity of imported material, imported by the registered manufacturer in the six months preceding the quarter in which export is made, shall be taken as the cuprous oxide content of the imported material. Thus the rate of drawback will be calculated as under:—

Assuming that the maximum cuprous oxide content in the imported material imported by the registered manufacturer during the preceding six months is 50 per cent. and that the cuprous oxide content in the goods exported is 5 per cent., the rate of drawback will be seven-eighths of the average duty paid on one pound of the imported material for every ten pounds of the goods exported.

(3) Such rate shall be determined by the authorised Chief Customs Officer at the beginning of every quarter on the basis of the particulars furnished by the registered manufacturer, and verified by a Customs Officer, of the average value of the imported material, imported during the preceding six months or such longer period as the Customs Collector may deem necessary and the duty payable thereon.

(4) The rate of drawback as determined under sub-rule (3), shall be in force for the quarter mentioned therein and shall be applicable to shipments made during that quarter from any port in India or the State of Pondicherry.

  - (i) the description of the goods;
  - (ii) the registration number of such manufacturer and the name of the officer by whom he has been registered;
  - (iii) the particulars of any brand or trade mark attached to the goods;
  - (iv) the gross and net weights of the goods tendered for export; and
  - (v) the net weight of cuprous oxide contained in one dozen uniform packages or specified weight, or such other convenient quantity as the Customs Collector thinks fit, of each brand, grade or variety of the goods tendered for export.

(2) No drawback shall be allowed on the shipment of the goods in respect of which the composition or formula has been altered contrary to the provisions of sub-rule (5) of rule 4.

**7. Powers of Customs Collector.**—For the purpose of enforcing these rules, the Chief Customs Officer or the Customs Collector may require a registered manufacturer to furnish to a Customs Officer—

- (a) representative samples from each of the consignments of the imported material, at the time of their import;
- (b) representative samples of each brand, grade or variety of the goods tendered for export;

At the desire of the parties and for the convenience of adjudication it was decided that the Tribunal should hold its sittings at Mosabani. Accordingly, the Tribunal commenced its sittings at Mosabani on the 16th January, 1957. At the commencement of the hearing the representatives of the disputing parties informed the Tribunal that negotiations were going on between them for bringing about a settlement. Negotiations went on and continued till the afternoon of the 17th January, 1957 when the parties filed a joint Memorandum of Settlement and prayed that the Tribunal might be pleased to make an award in relation to all the items of dispute scheduled to the reference in terms of the joint Memorandum of settlement.

The Memorandum of Settlement which would form a part of the award bears out that as a result of amicable settlement between the Union and the Management, the parties have withdrawn several of the demands scheduled to the original order of reference. Regarding the rest of the demands the agreement between the parties have been set out in the Memorandum of Settlement. The Memorandum divided into two parts marked A and B. The Memorandum of Settlement marked B covers items 1, 3, 10, 12 and 14 of the schedule to the reference. Rest of the items of the schedule are covered by the Memorandum of Settlement marked A.

The Terms of Settlement disclose that as a result of settlement by mutual agreement the following demands covered by items 2 (inclusive of sub-items a to h), 4, 5, 6, 7, 8, 9, 11, 13, 15, 16 and 17 have been withdrawn. In part A of the memorandum it is stated towards its close that those demands are "withdrawn as having been settled by mutual agreement." It is to be accepted that the parties have come to an amicable understanding, as a result of mutual discussion and negotiation, prompting them to withdraw those demands. Apropos it may be mentioned that in the Memorandum of Settlement Part A terms have been embodied under broad heads touching upon some of the demands withdrawn, such as demands for revision of wage structure and of Profit Sharing Bonus Scheme, etc. All those terms shall prevail and shall be binding upon both parties according to their agreement in so far as the pertinent demands among those withdrawn are concerned. The withdrawal of the demands shall, in terms of the settlement, be controlled by the operative terms embodied in the memorandum part A.

The terms of Settlement as detailed in the Memorandum appear to be quite in order. This Tribunal feels convinced that the parties have come to terms in relation to their disputes with a desire to bring about a healthy and amicable understanding between the Management and the employees and to maintain an atmosphere of peace and harmony for at least the next three years. The Tribunal feels that in the interest of the industry and for maintenance of harmonious relationship between the Management and labour it should make an award in terms of the Memorandum of Settlement.

There is one matter which is necessary to be made clear in the award and that is in regard to the period of operation of the terms of settlement as

embodied in the award according to the Memorandum of Settlement. In so far as part A of the Memorandum of Settlement is concerned it has been specifically agreed to by the parties as incorporated in part A of the Memorandum that the settlement as to the Memorandum will be binding for a period of three years as from the 1st January, 1957. On the basis of that agreement the terms of agreement as under part A of the Memorandum of Settlement shall remain in operation for a period of three years commencing from the 1st of January, 1957, that is to say, until the expiry of 31st December, 1959.

Part B of the Memorandum of Settlement is silent as to the period of the operation of the terms of agreement embodied therein. There was a discussion in regard to this matter on the 17th January, 1957 on which date the Memorandum of Settlement was filed by the parties. As a result of that discussion it was decided by the Tribunal that the award on the basis of the settlement as under part B of the Memorandum of Settlement should be binding on the parties for a period of three years. This decision was made on the basis of the initial agreement between the parties dated the 4th July, 1955 whereunder the management of the Indian Copper Corporation Limited and the Mosabani Mines Labour Union agreed to move the Government for an adjudication of the disputes by the Industrial Tribunal and agreed further that the award which might be given by the Industrial Tribunal in relation to the disputes would be binding on both parties for three years from the date of award. These are the exact terms in the original agreement between the parties dated the 4th July, 1955 in that behalf:

**"It is agreed that the award given by the Industrial Tribunal to the existing dispute will be binding on both the parties for three years from the date of the award."**

This Tribunal accepts the Memorandum of Settlement filed by the parties and makes an award in relation to the disputes referred to the Tribunal in terms of the Memorandum of Settlement. The Memorandum of Settlement, both parts A and B, shall form an integral part of the award. The period of operation of the award shall be as stated above *viz.* three years from the 1st January, 1957 in relation to the terms of settlement embodied in part A of the Memorandum of Settlement and for three years from the date of award *viz.* 31st January, 1957 in regard to B part of the Memorandum of Settlement.

Sole Member.

As a result of an approach made by the Mosaboni Mines Union to the Management in the presence of the Conciliation Officer, Central, Asansol, on the 21st December, 1956, it was resolved that if the two Unions, namely, the Mosaboni Mines Labour Union and the Moubhandar Mazdur Union joined hands and then approached the Management for a settlement across the table of the outstanding Demands, such as Revision of the Wage Structure, Gratuity, Profit-Sharing Bonus, etc., which are common to both the Unions, and which are pending before the Industrial Tribunal of Mr R K Basu, then the Management agreed to open discussions in an attempt to reach a settlement before the date fixed for the forthcoming Adjudication.

This proposal was accepted by the Moubhandar Mazdur Union as the result of which the two above-named Unions combined to put forward their joint Demands to the Management. These demands were contained in an enclosure to the Moubhandar Mazdur Union's letter No MMU/GM/57/5, dated 12th January, 1957, addressed to the General Manager of the Indian Copper Corporation, and signed by the General Secretary of the Mosaboni Mines Labour Union and the General Secretary of the Moubhandar Mazdur Union.

These discussions commenced on Saturday, the 12th January, 1957, and are being concluded on Wednesday, the 16th January. After a very lengthy discussion, a settlement was arrived at. The terms of the settlement are as follows:—

Demand	Settlement
1. Revision of Profit-Sharing Bonus Scheme and to be linked with net profits instead of Dividends 30% of the net profits to be distributed to the employees as bonus. This bonus should be paid <i>pro rata</i> to all the workmen who have put in service of at least six months and over and it should be paid at the rate of pay drawn on the last date of the year to which the Bonus is related.	It has been agreed that the Profit-Sharing Bonus should remain linked with Dividend as at present. With effect from the 1st January, 1957, the additional provisions of the 1953 Mines Award, concerning the payment of Bonus after 6 months' service on a <i>pro rata</i> basis will be extended to the Moubhandar Employees. The profit-Sharing Bonus will be based on the pay of the individual as at the 31st December each year, or the date on which his service with the Corporation is terminated. The recent or future issues of Bonus Shares will not affect the basis on which Profit-Sharing Bonus is calculated. In the event of the Company's annual Dividend being restricted by Government Order or Legislation, it will be necessary to re-consider this issue.
2. Revision of Wage Structure, including the fixation of minimum wage for all employees including clerical staff.	<p>It is agreed that the revised minimum wage for male mazdurs on surface will be in the scale of Re 1/-—Rs 1/0—Rs 1/4/- Female mazdurs will be paid one anna less on the starting and finishing grades than the male mazdurs. 4. (a) Existing Production Bonus Schemes in the Works should be revised.
- (b) Production Bonus Scheme should be introduced to those production departments which are not enjoying the Bonus Scheme.
- (c) Production Bonus Scheme should be introduced in the Mines.
5. Introduction of Maintenance Bonus Schemes to those Departments which are performing maintenance jobs.
6. Introduction of Service Bonus to all employees who are not covered by either Production or Maintenance Bonus.

These Bonus Schemes have been discussed, but no change has been made to the existing Schemes. This may be re-opened at a later date.

7. The existing scheme of Retiring Gratuity should be changed so that one month's basic pay should be paid for every completed year of service and the qualifying period of service should be fixed at 10 years.

Rule 3 of the Company's Gratuity Rules as amended on 22-2-52, will be amended as follows :—

On retirement, every workman who has completed 12 years' continuous service under this company, before such retirement under this Company, before such retirement shall be eligible to get Gratuity as follows :—

15 days basic pay for every year of service rendered.

In the event of the workman being eligible for both gratuity and refreshment benefits under the Act, he shall be entitled to compensation under one or the other, whichever may be the higher, but not both.

In the event of the death of a workman whilst in the Company's employment, his heirs or executors and nominees will be entitled to draw his gratuity for the period he has served, irrespective of the fact that he may not have been in the Company for the full 12 year period. In the event of an employee being discharged as unfit for further duty, on the recommendation of the Company's Medical Officer, he may be allowed gratuity at the rate of 15 days basic pay for each year of service rendered, in lieu of the present compassionate grant.

8. All quarters should be electrified and adequate street lighting should be provided.

The Company will agree to electrify quarters and supply electricity against payment from the employees, providing Government permission can be obtained. This must form part of a phased programme entailing a complete overhaul of the existing lighting arrangements, and will be taken in hand as soon as possible.

9. Adequate improvement in medical facilities to be provided to the employees as well as their dependants. Treatment and hospitalization of T.B. patients should be arranged.

The Company have already provided a new Maternity Wing at Mosaboni, and will consider an extension to the Female Ward at Moubhandar Hospital. In addition, further efforts will be made to improve the hospital facilities, in continuation of the programme which has already been carried out during the past few years. The Company will arrange to endow two beds for T.B. patients in a Jamshedpur Sanatorium.

This demand has been withdrawn for further discussion at a later date.

10. The school teachers should be treated as Company's employees and the entire school expenses should be borne by the Company and the present schools to be upgraded to High School standard.

It has been explained that the Company are doing their utmost to build an adequate number of quarters at Moubhandar and that this work is progressing at a reasonable rate. At Mosaboni, the Union have agreed to try and assist the Company over acquiring the necessary land, after which the construction of further quarters will be commenced immediately.

11. Within the next two years the Company should build adequate number of quarters so that employees who are in need could be accommodated.

The Company's Standing Orders do not allow for the collection of money within the Works and Mines areas, but the Company have agreed to supply shelters (along with one table and 2 chairs) outside the Gates for collection of subscriptions by Union members on pay day.

12. Union should be allowed to collect subscriptions at the pay counters.

(1)

(2)

13. Contractors' labour should not be engaged on Production and Maintenance jobs.
14. Over-time should be paid to all monthly rated staff, including the clerical staff if asked to do overtime.
15. All out-door employees, such as peons, sanitary inspectors, motor and loco drivers, health department employees, should be provided with rain-coats, umbrellas, winter coats and cycles to those whose nature of work requires cycling.
16. Those who are acting in a vacancy for more than one year should be confirmed in that post.

All parties have agreed that the above Settlement will be binding for a period of three years, as from the 1st January, 1957.

It is also agreed that with reference to the Mosaboni Mines Union's original Charter of Demands enclosed with the Memorandum of Settlement dated 4th July, 1955, and which is at present before the Tribunal sitting at Mosaboni, the following demands be withdrawn as having been settled by mutual agreement :—

14(e) Discriminatory treatment. Jittan Singh—He has not been supplied with any residential quarters although he has put up a considerably long period of service and his juniors have been given quarters. He should be supplied with residential quarter immediately.

AWARD:

This is a petition under section 33A of the Industrial Disputes Act, 1947, filed by one Shri Birinchi Narayan Mishra, an employee, designated as Gas & Fire Patrol, of the Indian Copper Corporation Limited. His grievance is that in the matter of the appointment of underground Asst. Foreman his claims have been superseded in favour of a junior workman of the name of Shri W. A. Brown, who was appointed to that post on 24-12-1956, although on many a previous occasion the petitioner had worked in the same capacity as the underground Asst. Foreman under different designations. The petitioner contends that by appointing Shri Brown in supersession of his claim of seniority the Corporation has contravened the provision of section 33 of the Industrial Disputes Act, 1947 by imposing an adverse alteration of his service condition without the necessary sanction of this Tribunal.

Both parties are ready. The workman, applicant, is present in person and also represented by the Asstt. Secretary, Shri H. K. Dass, of the Mosabani mines Labour Union. Shri J. K. Ghosh with Shri W. P. Brunton, Mines Superintendent, is present on behalf of the Opposite Party, the Company. It is a matter of satisfaction that the parties have since come to an agreement. The Memorandum of Settlement signed by both the parties has been filed. It appears that sometime in April, 1956 the applicant Shri Mishra made a representation to the Management for a suitable promotion and that the management in reply asked him to put in a formal petition for promotion to any particular job. The management's reply to the workmen is dated the 18th April, 1956. No further step was taken by the petitioner pursuant to the reply sent to him by the management. It is now agreed between the parties that the petitioner would pursue this matter and that the management would sympathetically consider his case. In view of this amicable arrangement between the parties the petitioner prays that he may be allowed to withdraw from his petition. Let this Memorandum be treated as an annexure to the award.

Accordingly, the petition under section 33-A is allowed to be withdrawn and the case is dismissed for non-prosecution.

AWARD

This is an application under section 33-A of the Industrial Disputes Act, 1947 preferred by one Shri Shaukat Ali Khan, who has been working as an underground checker in the Mosabani Mines under the Indian Copper Corporation Limited. It is his grievance that his claims for training for promotion to the post of Assistant Sampler have been unjustifiably ignored by the Management for giving preference to underground checkers junior to him in service. It is his complaint that Shri Indrodeo Sahay and Shri S. N. Dey, underground checkers, junior to him have been detailed on training for Assistant Samplers' job, from December, 1956 in supersession of his claims and in derogation to his service

conditions during the pendency of an adjudication proceedings before this Tribunal without the express permission of this Tribunal as required under the provisions of section 33 of the Industrial Disputes Act, 1947. It is his contention that the normal rule obtaining in the matter of promotion is to depute the senior-most man in the cadre of underground checkers on training for the post of the Assistant Sampler in case of a vacancy. As this rule has been violated in the case of Shri Shaukat Ali, he has moved this Tribunal for necessary redress under section 33-A of the Industrial Disputes Act, 1947.

Both parties are present to-day. At the very outset Shri Dass put in an application signed by the applicant Shri Shaukat Ali praying for certain amendments of the original petition filed by him under section 33-A. In the main application under section 33-A relief has been sought as against the General Manager, as such of Messrs. Indian Copper Corporation Limited instead of against the Management of the Indian Copper Corporation Limited as should have been done as the adjudication proceedings pending before this Tribunal is in relation to disputes between the Management and the workmen of the Indian Copper Corporation Limited and as according to the nature of things no relief can be granted as sought for by the applicant Shri Shaukat Ali Khan against the General Manager of the Corporation as such. It is clear that the General Manager of the Corporation has been impleaded as opposite party in the application under section 33-A under a misconception. However, when the Management of the Corporation has appeared before this Tribunal to contest the application under section 33-A, there can be no difficulty in granting the amendment as prayed for by the applicant. It is ordered that the Indian Copper Corporation Limited be substituted as opposite party in the application under section 33-A for the General Manager.

Another amendment has been prayed for in the petition for replacing the relief prayer in the original application to the effect:

“The petitioner accordingly prays that the Tribunal may be pleased to decide the complaints set out above and pass such order or orders thereon as it may deem fit and proper”

by the following prayer:

“That the prayer of the petitioner is that he should be allowed to undergo training as an Assistant Sampler in preference to Sri Indradeo Sahai and Sri S. N. Dey.”

This prayer for amendment is entirely of a formal nature and specifically accords with the complaint set out in the body of the application under section 33-A. Accordingly the amendment is allowed and it is ordered that the relief prayer in the original petition be replaced by the relief prayer incorporated in the amendment petition.

Both parties have examined witnesses. On the side of the applicant workman three witnesses have been examined viz. (1) Sirdar Guru Baksh Singh (2) Shri Moheswar Mahali and (3) Shri Shaukat Ali Khan, the applicant himself. Shri S. K. Biswas, Geologist, in the employ of the Corporation has been examined on the side of the Corporation.

In order to succeed the applicant has to show that the normal rule obtaining with the Corporation is to depute the senior-most underground checker, which the applicant Shri Shaukat Ali Khan claims to be, for promotion to the post of an Assistant Sampler i.e. and when a vacancy in the latter post occurs.

It has not been denied by the Corporation that Shri Indradeo Sahay and Shri S. N. Dey, underground checkers junior to Shri Shaukat Ali Khan, applicant, have been deputed for training for filling up vacancies in the higher posts of Assistant Samplers, but the workman has totally failed to prove that as a matter of normal rule seniority has been the sole criterion for promotion. On the other hand even the witnesses examined on the side of the applicant-workman, other than the applicant himself have been constrained to admit that junior underground checkers have been selected hereto before for promotion as Assistant Samplers in preference to senior underground checkers. Applicant's witness No. 1 Sirdar Guru Baksh Singh rose to the rank of Assistant Sampler by promotion from that of underground checker. In cross-examination he had to confess as follows:

“I don't think I was the seniormost underground checker when I was promoted to the post of Assit. Sampler.”

Sirdar Guru Baksh Singh made this position further clear in course of his cross examination He said

"So far as my knowledge goes even at present seniority in service is not an inflexible criterion in the matter of promotion from the post of underground checker to that of Asstt Sampler"

Witness No 2 Shri Maheswar Mahali on the side of the workman in another promoted Assistant Sampler from the post of underground checker In course of cross-examination he said as follows:

"There were several other senior underground checkers over me when I was selected for promotion for the post of Asstt Sampler."

Thus even on the evidence on the side of the workman the fact remains that the seniority was not an invariable criterion for promotion of underground checkers to the post of Assistant Samplers The averment made in the application under section 33-A to the effect that the normal rule prevailing is to depute the seniormost man on training for promotion from underground checker to Assistant Sampler is thus without any substance even in so far as the independent evidence on the side of the workman goes

Shri Dass, Assistant Secretary of Mosabani Mines Labour Union appearing on behalf of the applicant workman has put in the copy of a conciliation settlement dated 12th June, 1954 whereunder it was agreed between the Management and the Union as follows:

"Whereas seniority will be considered, the promotion of an employee to a higher post is in the discretion of the Management and will also depend on the ability and service record of the employee concerned."

Shri Dass has argued that on the basis of this agreement it behoved the Management to depute the workman-applicant, Shri Shaukat Ali Khan in his capacity as the seniormost underground checker for training for promotion to the post of the Assistant Sampler instead of Junior underground checkers as has been done by the Management Shri Dass seems to have overlooked the latter part of the agreement arrived at at the conciliation settlement viz, that promotion of an employee to a higher post is in the discretion of the Management and will also depend on the ability and service record of the employee concerned although seniority of the employee would be taken into consideration According to the agreement relied upon by Shri Dass seniority was not made the sole criterion for promotion and this is as it should be

On the side of the Management it has been shown that promotion of underground checkers as Assistant Samplers is made by a test held among the seniormost underground checkers and that as a result of test which was held in November, 1956, the applicant Shri Shaukat Ali Khan was found unfit and that as such his juniors who came out successful in the test were selected for training for promotion to the posts of Assistant Samplers Applicant's witness No 2 Shri Maheswar Mahali admitted in cross-examination that even when he was appointed Assistant Sampler by promotion he had been selected by a test He stated in cross examination as follows.

"I was appointed Asstt Sampler in 1949 At the time of my selection there was a test held in which I was found fit So far as my knowledge goes a test is held for selection for promotion and only those persons who are found fit at the test are selected for promotion"

In his case also he was selected for promotion in supersession of senior underground checkers He said this in cross-examination:

"There were several other senior underground checkers over me when I was selected for promotion for the post of Asstt Sampler."

Thus, there is no gain saying the fact that junior underground checkers have been appointed by promotion as Assistant Samplers in supersession of senior underground checkers and that selection or promotion have been made on the result of tests held for the purpose The workman Shri Shaukat Ali Khan, therefore, cannot make it a grievance that underground checkers junior to him who were found fit at the test have been selected for promotion and training in supersession to his claims of seniority in that he was found unfit at the test

Shri Shaukat Ali Khan has admitted in evidence that he appeared at the written tests in English and Mathematics held in November, 1956 for selection for promotion but that he was not allowed to appear at the test on the subjects of

Speaking, Reading and Handwriting. This is made clear by Shri S. K. Biswas, Geologist, examined on behalf of the Corporation. Shri S. K. Biswas averred that the test was held on five subjects: English, Mathematics, Speaking, Reading and Handwriting and that only those persons who were successful in the test of the first two subjects *viz.* English and Mathematics were allowed to appear at the tests in the other three subjects: Speaking, Reading and Handwriting. Shri S. K. Biswas has asserted categorically that as Shri Shaukat Ali Khan failed at the written test in Mathematics he was not called to appear at the test in Speaking, Reading or Handwriting. It cannot be doubted that Shri Shaukat Ali Khan was given a chance to prove his fitness for promotion but that as he failed to pass the test of fitness he was passed over and two persons junior to him who were found fit at the test were detailed by the Management for training for promotion as Assistant Samplers.

The Tribunal holds that the applicant has totally failed to make out a case for Tribunal's intervention under section 33-A of the Industrial Disputes Act. His application is accordingly dismissed. No order for costs.

AWARD

These are two applications under section 33-A and section 33 of the Industrial Disputes Act, 1947, respectively. The first has been filed by Shri Damodaram, an employee of the Indian Copper Corporation Limited, praying that the Opposite Party, Indian Copper Corporation Limited, may be directed to allow Shri Damodaram to continue in his employment or in the alternative to render him proper medical assistance in case he is found not sufficiently medically fit for duties inasmuch as the Corporation intends to terminate his services on the ground of medical unfitness. The application under section 33 has been filed by the Indian Copper Corporation Limited for permission to terminate the services of Shri Damodaram as he has been found medically unfit for continuing in service.

At the desire of the parties both these applications came up for hearing together. At the hearing the parties arrived at a settlement and filed a joint Memorandum of settlement and prayed that the applications may be disposed of in terms of the Memorandum of Settlement, treating the Memorandum as a part of the order of the Tribunal.

The Indian Copper Corporation Limited is given permission according to the agreement to terminate the services of Shri Damodaram on the ground of his medical unfitness subject to the terms agreed upon between the parties that Shri Damodaram be paid gratuity in accordance with the terms of the settlement entered into between Indian Copper Corporation Limited and the Mosabani Mines Labour Union, dated 16th January, 1957 in connection with the main reference and further that as a matter of special measure of compassion Shri Damodaram be paid by the Corporation an additional amount equivalent to one month's salary and further that should Damodaram be hereafter declared medically fit he might approach the management for sympathetic consideration for re-employment.

According to the terms of the settlement the *ex gratia* additional payment of one month's salary and the election given to Shri Damodaram for approaching the management for sympathetic consideration for re-employment in case of his recovery should not be treated as a precedent in any other similar case hereafter.

Let the Memorandum of Settlement be treated as a part of this order in terms of which both the applications under section 33 and 33A are disposed of.
